UO GMs NOT CANNIBALS,

SAYS UO

- by DeadBob

UO Spokesman "Woot

Woot" Barney today

denounced as "mere

speculation" reports that

GMs lured players into a

Tokuno wooded area for

an Iron Chef Competition.

"They were the Chefs,"

Goji had reported, "And

we were the ingredients."

This reporter stared at

the veteran warrior, who

leaned noticeably to the

left as he sat in the

saddle.

"What happened," I asked?

"It was horrible. Some of

us followed runes marked

"Good Food" to a woods.

We were jumped by GMs

wearing Chef's hats and

carrying cleavers. They

slaughtered several people

I knew & popped them

into Hag's cauldrons full

of boiling water. Then  
they danced around the  
cauldrons while adding  
seasoning & chanting,  
"Kick-it-up-a-notch!"

The big man shifted  
uncomfortably in his seat,  
leaned left again, and  
fixed me with his steely  
eyes. "I can show you  
proof," he said.  
Goji looked around  
carefully, then dismounted  
his swampy and mooned  
me.  
OMG! His left buttock  
was missing!

"They almost got me," He  
said. "It was real close, I  
tell you."

But UO Spokesman Woot  
Woot, even when  
confronted with this eye  
witness testimony,  
dismissed it derisively,  
saying only, "Well, that  
evidence is half-arsed,  
ain't it?"

LOVE-LOST  
by Dr. Ruth  
BN'dere-Dundat

StUdLy: I got a great  
bod! Flowing blond hair,  
rakish mustach! Big sword  
and I'm naked!! My title  
is, "Ready" -yet girls  
don't talk to me much.  
What Else do I Need?!

Dr. Ruth: A life?  
-rofl-

Wyllng: Please help me  
<sob> Dr. Ruth. I meet

so many wonderful guys  
here and they always say  
such nice things to me  
and fill me with their joy  
and then I fall in love  
with them and give them  
my heart and then  
<uncontrollable sob> I  
find out all they wanted  
wasn't my Heart at all  
but --

Dr. Ruth: Thanks, Wyllng,  
I understand. Be  
comforted that this never  
happens to you in the  
RW, does it, my dear?

-rofl-

The CYBERnAUT'S GUIDE  
To The Internet has this  
to say on the subject of  
rules. "There is only one:  
Anyone who tells you of  
Any rule wants something  
from you."

LETTER TO THE EDITOR

Mondain's Skull:

In one of the earliest  
Ultima box games, you  
could retrieve Mondain's  
skull from the ocean  
depths.

Whenever you lifted this  
skull above your head in  
a town, everybody in that  
town died.

I think this was Ultima  
III, but can anybody tell  
me for sure?
